The London quotations reflect a steady market for consols and United States bonds, the '65s of the latter being a fraction higher. Erie was quiet and covered to 56.05. the new French loan firm. Rentes in Paris re-

The relaxation in money on Saturday was regarded on the street as hardly a fair indication of the real situation of the market, owing to the than on others. Hence an early demand this morning at as high as 1-32 in addition to 7 per cent was taken to be the beginning of a reaction toward stringency. Fortunately these anticipations were not doomed to realization, for the suped as the day advanced, and the rate fell off to 7 per cent gold, with exceptional transactions at plain 7 per cent. Toward three o'clock on of 1-64 was allowed again, but the closing dealings were mostly on the basis of 7 gold a 1-32 flat. Commercial paper was quoted 10 a 12 per cent discount for prime names, but no transactions of any extent were reported.

The case in money led to a further and sharp advance in foreign exchange, particularly in sight sterling, which rose % per cent, from 108% on Saturday to 109% this evening. The demand ran upon sight sterling in connection with the covering of outstanding credits, while sixty-day bills were to be had 1 per cent lower, at 108%. The sight rate is a little over par, and makes the worth \$4 87%, against its standard or intrinsic value of \$4 86%. The following shows the revised rates:-Sterling, sixty days, commercial, 107% a 108%; do., good to prime bankers', 108% a 108%; do., short sight, 109% a 109%; Paris, sixty days, 5.34% a 5.27%; do., short sight, 5.23% a 5.22%; Prussian thalers, 71% a 71%; Antwerp, 5.32% a 5.27%; Switzerland, 5.32% a 5.27%; Hamburg, 94% 8 95%; Amsterdam, 39% a 40%; Frankfort, 40% a 40%; Bremen, 94% a 95%

GOLD WEAK-117%, 117%. The advance in foreign exchange did not pro vent a further decline of 1/2 per cent in gold, viz from 117% to 117%, the explanation lying in th depressed by the stringency in money, gold wa artificially high through speculative movemen In the recent tendency of all the markets to get their proper level in the readjustment succeedi the relaxation in money, gold and foreign exchang crossed each other, the former going down fro 119% to 117%, and sight sterling rising from 1 to 109%. It seems almost paradoxical that go should be weak at, the same time that foreign change is strong, and

A COUNTER MOVEMENT of the two markets, like the present, is only rare witnessed. At the same time the decline in go to-day appears inconsistent with the mercanti demand for exchange. The explanation this tin lies in sales of gold against exports of governmen bonds, which, with the firmness in exchange, we allowed an outlet to London. The course of t market is shown in the following table :-

The injunction procured by the stockholders the Cleveland, Columbus, Cincinnati and Indi apolis Railroad, deferring indefinitely the ratifition of the lease of the road to the Atlantic a Great Western Railway, has been supplemented a legislative enactment intended to further prot the stockholders. The new law is thus st marized in a letter from Cleveland:-

marized in a letter from Cleveland:—

The bill provides that no proposed purchas lease or arrangement between the managers any two rairoad companies shall be perfected without the assent of the holders of at least tweething the stock of the company whose road he be leased; and stipulates that "the rental reserve and secured for said leased road shall be equal at least the net earnings of such leased road for the fiscal year next preceding the one in which salease is made." It also enacts that stockholder efusing assent to the lease, e.c., if the same carried, shall be entitled "to demand and receive from such lease or leasees, previous to such lease purchase or arrangement being consummated, it average market value of their stock for six monthext preceding the day of the meeting of the corpanies at which said lease is approved as aforesa on the surrender of their stock." Provision also made for determining the market value such stock in cases where the parties cannot in tually agree upon the price. The fourth section repaires the lesses to give the stockholders of troad leased "full and adequate security for the property of the lessor in good condition." &c. An finally, it is provided that any railroad corporation organized prior to the present constitution, aleasing its line under this act, shall thereby forf and lose the special privileges contained in original charter, and be held to be recognized under the provisions of the present constitution.

STOCKS UNSETTLED AND LOWER. The feeling in the stock market and in V street in general was much quieter, and busin opened as calmly as if the late panic were mon strong, and during the first hour or two prices proved % a 2 per cent, the latter extreme be As the day progressed the disposition to sell came ascendant, and prices under slow reali going back 1 per cent. Among the newer fanc New Jersey Southern advanced to 38. The clic whose personal vanity has been aroused, so i said, to make the road the nucleus of a new tru route to the South. He is building a leviati ferryboat to carry the trains over the water between New York and the long dock at Rari Bay, and connection will be made with Philad phia via the Camden and Atlantic line. When stock is 10 a 20 per cent higher we shall doubt learn that the concern is to be "leased to Pennsylvania Central."

Cotton Firmer-Receipts at the Ports. 13.827 Bales-Flour Dull-Wheat Firmer-Corn Firmer-Oats Steady-Pork and Lard Firmer-Groceries Quiet-Petro-leum Dull-Naval Stores Steady-Whiskey Unchanged.

Monday, April 21—6 P. M.

Business marts were quiet to-day, but there were evidences of renewed confidence in the stability of commercial matters and a more hopeful feeling as regards the future of Wall street. It was given out that the worst had passed, and the hope that such would prove to be the case was universal; hence there was increased confidence and a better feeling among business men generally. Still, business isnouished in many departments of trade, and there was but little activity anywhere. The continued buoyancy in the provisions market was the chief feature of interest on 'Change, the other markets ruling quiet and nominally unchanged, except in a few instances. was quiet but more steady. Flour was dull. Wheat was more active and firmer, particularly for prime, which was virtually held out of the market. Corn was also firmer, but the firmness checked the demand. Oats were steady. Whiskey was unchanged. Pork was buoyant and higher, as was also lard, which was decidedly higher. both for lots on the spot and future delivery, the market closing buoyant. Groceries continued quiet. Petroleum was dull and nominally unchanged. Naval stores were in light request and ruled about steady.

THE EAST RIVER BRIDGE.

Meeting of the Directors of the Company. The Board of Directors of the East River Bridge Company met in their rooms, corner of Fulton and Front streets, Brooklyn, yesterday, Senator Murphy, the President, in the chair. The minutes of the Executive Committee, which were read and approved, showed the disbursements up to March 7, 1873, to be \$3,500,000. The bills and vouchers since the first of June last were referred to the Finance Committee to audit.

The Chair stated that the contract for stone

about to be entered into was at a higher rate by

about to be entered into was at a higher rate by fitteen per cent than previous contracts, on account of the additional cutting required.

Mr. Roebling was granted a leave of absence for four months on account of ill health.

The President stated that he had presented the amendments of the legislative committee to the charter to the Senate, and they had been passed and sent to the Assembly; whether they will pass without the presence of some members of this body to advocate them he could not say. He mentioned this to be relieved from the embarrassment of his position as Senator and President of this Board.

Mr. VANCE moved that hereafter stockholders should receive seven per cent interest upon their subscriptions. He did so in order to induce others to come in and invest their money with the certainty that they will receive seven per cent interest up to the time of the completion of the bridge.

Mr. Judge McCue seconded the motion.

Mr. Hewitt desired to know whether interest was to be paid to the cities. If not, he should oppose it, because no distinction should be made. The enterprise was a public one, the cities having subscribed at the solicitation of the private stockholders, and it would be unwise to make the cities pay them now.

Mr. VANCE thought that some recognition should

pay them now.

Mr. Vance thought that some recognition should be made of those who subscribed at the outset of

the enterprize.

Mr. Hewitt said if this were done it would require additional capital, as, if the cities were included, it would require \$250,000 a year more.

Mr. Barnes objected to the motion on account of the increased expense it would devolve on the

the increased expense it would devolve on the company.

Judge McCur objected to including the two cities, because the interest of those cities in the success of the bridge was peculiar; and, practically, it might impede us in the future in the raising of additional capital.

Mr. Stranahan said that the charter contemplated relieving the stockholders by the cities. Comptroler sinopensaid the cities had a right to take charge of the enterprise, and the question, in his mind, was whether it was the interest of the cities to give the private stockholders any compensation for having supported the enterprise.

Mr. Murphy moved that the proposition be sent to the Legislative Committee for consideration, they to report an Monday next.

The motion prevailed and the meeting adjourned

SCALDED TO DEATH.

At haif-past five yesterday afternoon Caroline Shuwert, two years of age, fell into a tub of boiling water, which her mother intended to use in washing, and was so badly scalded that she died at six o'clock. Her parents reside at 145 Bushwick avenue, Williamsburg.

MUNICIPAL AFFAIRS.

A BIG JOB STOPPED.

The Assistant Aldermen and the Night Soil-The Lodi Manufacturing Com-

pany in a New Shape.

The only important incident at the meeting of the Assistant Board of Aldermen was the introduc tion yesterday by Mr. Murphy, of the Second dis-trict, of the following job:-

Resolved. That the Board of Health of the Health I partment of the city of New York, as the same now is may be hereafter constituted, is hereby authorized contract with the person or persons from whom the sea Board received, on the 19th of March, 1973, the lowest ponsible bid, to furnish during the day as well as tight, up to the 1st of May, 1875—or until the sooner dermination of a contract made by and between the day of, Aldermen and Commonality of said city, he one part, and Daviel Calledon. The reporter of the HERALD, believing that the Lodi Manufacturing Company were at the back of the resolution, interviewed Mr. Murphy as fol-

the resolution, interviewed Mr. Murphy as ionlows:—
REPORTER—Mr. Murphy, what is the object of the
resolution offered by you?

Mr. MURPHY—To remove the night soil.
REPORTER—Are not Gallagher and Andrews virtually the Lodi Manufacturing Company?

Mr. MURPHY—Yes, the contracts are controlled
by them. This is a reduction from their old rate
of \$45,000 for removing night soil.
REPORTER—It is now only \$42,000 they receive.

Mr. MURPHY—Well, I don't know much about it;
I was asked by the Commissioner to put it through.
REPORTER—What Commissioner of the Health
Board.

Mr. MURPHY—A Commissioner of the Health Board.
Alderman Healty moved the adoption of the resolution, when objection was made and it was referred to the Committee on Health. The committee, the Health Commissioner, Mr. Murphy and the Lodi Manufacturing Company, in view of the fact that the waste of the city, now worked up by the Lodi Company, is worth over two millions of dollars per annum to the city, will bear careful watching.

THE SUPERVISORS.

This Board met yesterday, when the following, mong other bills, were read and referred to ap-

Coroners, for marter ending March 31, 1873, Referred to Committee on County Offices

Jacob Wiber, repairs to Central Market Armory, \$20,000. Referred to Committee on Armories.

The Committee on Armories, through Mr. Cooper, made their report on all the minor leases of armories, leaving out the "Ring" leases, and they expressed the opinion that the county is liable for the faithful performance of its part of the contract in leasing the premises referred to in

their report.

A number of minor bills were referred to the committees.

A resolution to pay the Astor House \$1,710 for subsisting tweive jurors and five efficials for nineteen days' attendance in the Scanneil trial met with opposition in the Board, and a heated discussion followed, in which Supervisors Kehr, Blings, Van Schalck and Ottendorfer participated. The committee had reported in favor of payment, but the report was laid over, many of the Supervisors denouncing it as a swindle, notwithstanding that the District Attorney certified to its correctness. Another bill in the Cordes murder case, amounting to about \$200, was passed without comment, and when the bill of a poor stenographer in a murder trial, at the rate of ten cents per folic, was submitted, Van Schalck and others had a discussion as to the relative value of the services of stenographers and Stelson's cooks that disgusted all the "sober" members of the Board, who looked on and said nothing. Yesterday's session of the Supervisors, and especially Mr. Van Schalck did not add to the reputation of the reform Board of Aldermen. Another quarrel occurred over a proposition of Mr. Billings to make the hour of meeting three o'clock P. M.

DEPARTMENT OF PUBLIC WORKS.

DEPARTMENT OF PUBLIC WORKS.

The work of reconstructing the City Hall for the accommodation of the Department of Public Works progresses rapidly, and already two or three bureaus have moved in. Yesterday a large number of workmen were engaged in transferring safes and furniture, and it is expected that Commissioner Van Nort and his brigade of subordinates (Modocs included) will be in complete possession by the 1st of May, and the old stamping ground of the Big Sachem, corner of Park place and Broadway, may ere the Summer ends be turned into a known of the intentions of the owner.

COMPTROLLER'S RECEIPTS. Comptroller Green reports the following amounts paid in the city treasury yesterday, viz.:-

Total..... COMPTROLLER'S PAYMENTS.

Comptroller Green will pay to-day the laborers on big pipes on the line of the work to April 15, instant. \$3,650.

THE METHODIST PREACHERS.

This body of ministers met yesterday in the Mission Room. Dr. Merwin presided. The devo-tions were led by Rev. Mr. French, who afterwards, as a member of the committee appointed last week to prepare resolutions on the death of Dr. Thomas and General Canby, both honored members of the Methodist Episcopal Church, presented his report. The resolutions assert that the fervent piety, Christian courtesy and valuable services to the Methodist Church of Rev. Dr. Thomas, of San Prancisco, have endeared him to Methodists all over the land, and the Preachers' Meeting heard with deep regret of his untimely and barbarous taking of. They recognize in General Canby the true Christi soldier and gentleman, and declare that during the late war for the Union the General was always ready to assist the chaplains and to further the cause of

to assist the chaplains and to further the cause of Christ in every way in his power, and throughout his command. Copies of the resolutions were ordered to be sent to Mrs. Thomas and Mrs. Canby, and copies were also furnished to the Christian Advocate and the Methodist, for publication.

The previous meeting not having selected a topic for discussion. Rev. Dr. Janes suggested that they could profitably spend a little while talking upon the vice of intemperance, and the best methods to eradicate it from the community. He led the way himself, in some remarks, favoring local prohibition now as a stop towards total prohibition by and any advantage from the large revenue produced by the manufacture and sale of alcoholic liquors when we set ever against it the cost of pauperism and crims in our midst and the value of precious lives falling a prey to this vice every year, at the rate of 100,000, and the misery that it entalls upon families and communities. Short addresses were also made by Revs. French Thomas, L. H. King, Willis, True, G. L. Taylor and others, giving experiences and making suggestions on this subject. The subject was continued for next monday in the form of a question as to the best means of promoting local prohibition and advancing the passage of the bill now before the State Legislature. Rev. Mr. Davis, the newly-appointed pastor of Simpson Methodist Episcopal caurch in Brookiyn, was introduced, after which the meeting adjourned.

RAILROAD THIEVES AT WORK

PHILADELPHIA, Pa., April 21, 1873. Last night eight freight cars consigned to New York, from the West, which were standing on the Pennsylvania Railroad track, near Belmont ave-Pennsylvania Rallroad track, near Belmont avenue, were broken open by thieves. As no manifest has been received, the amount and description of the plunder is not known. Several rolls of cilcloth were left on the track by the thieves. In one of the cars was an empty box, all the contents having been removed except a California newspaper at the bottom. The cars contained flour, to bacco and miscellaneous goods.

SUDDEN DEATH.

Mr. Frank Baker, aged 44, reading at 125 Pirth avenue, died suddenly last evening at the St. Nicholas Hotel. By permission of Coroner Young his body was removed to his late residence.
